

What is Maxpass? Fastpass + Photopass = Maxpass.

Save time in line at popular attractions by making Disney FASTPASS selections on your mobile device *using the Disneyland app while you're in the parks.*

Guests with park hopper tickets can even make selections for attractions in both theme parks once they have walked through the gates and scanned their ticket. (Everyone in their party must be in the park before they can make selections).

Capture all of your memories with unlimited Disney PhotoPass photo downloads for a day. Download and share photos from select dining locations, attractions, Character Greetings, Disney PhotoPass Photographers and Magic Shots.

Price is currently \$10.00 per person, per day.
